

ARLINGTON COUNTY, VIRGINIA

**County Board Agenda Item
Meeting of February 21, 2009**

DATE: February 1, 2009

SUBJECT: Authorize the advertisement of a public hearing for a proposed FY 2010 increase in the annual permit fee for refuse disposal equipment and a related change to the Arlington County Code, Chapter 10, Section 8e.

C. M. RECOMMENDATION:

Authorize advertisement of a public hearing on the proposed amendment to Chapter 10, Article 1 (Refuse) of the Code of Arlington County, Virginia, to be held on March 26, 2009. The amendment, if approved, would increase the annual refuse disposal equipment permit fee from sixty dollars (\$60) to seventy-five dollars (\$75).

ISSUE: Should the County increase the annual permit fee for refuse disposal equipment in order to realize revenues necessary to finance expenses in the FY 2010 budget?

DISCUSSION: The FY 2010 budget includes increases in the County's costs for inspecting and permitting refuse collection equipment on an annual basis. In order to keep the cost of inspecting and permitting refuse collection equipment 100 percent covered by fees increase the current fee from \$60 to \$75 and change the County Code accordingly.

County Code, Chapter 10, Section 7c, requires an annual inspection and issuance of permit for the use of equipment to collect and haul refuse in the County. The current permit fee has not been increased since FY1993 and does not capture the cost to the County of administering and performing the required inspections. In FY08, three-hundred and seventy-four refuse collection vehicles and compactors were inspected and permitted in a two month period. The fees generated \$17,156 in revenue that paid, in part, for the administration and inspections of the equipment.

FISCAL IMPACT: The increased fee allows the permitting process to return to a revenue neutral status whereby the process is no longer paid for from the County General Fund.
