

## ARLINGTON COUNTY, VIRGINIA

**County Board Agenda Item  
Meeting of April 24, 2010**

### **SUPPLEMENTAL REPORT – REVISED CONDITION**

**DATE:** April 23, 2010

**SUBJECT:** SP #80 SITE PLAN AMENDMENT for public utility/telecommunications located at 5055 South Chesterfield Road (RPC #28-018-001).

**DISCUSSION:** This report corrects Condition #1 of the staff report submitted April 7, 2010. The previous condition incorrectly left out reference to the panel antennas and radio cabinet that were discussed in the staff report and shown in the drawings dated February 3, 2010, and attached to that report. The revised condition includes reference to the applicant's proposal as discussed in the report.

Revised Condition:

1. The applicant agrees that the two (2) Clearwire dish antennas, three (3) panel antennas, and one (1) radio cabinet on the existing building at 5055 South Chesterfield Road will be installed as shown on plans dated February 3, 2010. Any additional antennas on the site will require a use permit amendment.

County Manager: BMD/GA

Staff: Matthew Pfeiffer, DCPHD, Planning Division
