

## ARLINGTON COUNTY, VIRGINIA

County Board Agenda Item  
Meeting of July 10, 2010

### SUPPLEMENTAL REPORT

**DATE:** July 7, 2010

**SUBJECT:** Consideration of the East Falls Church Area Plan.

**DISCUSSION:** In the previous staff report, dated July 2, 2010, staff recommended a set of Policy Determinations to be adopted by the County Board as the review and refinement of the East Falls Church Area Plan continues. In consultation with the East Falls Church Planning Task Force, staff has determined that, in addition to the seven (7) transportation related Policy Determinations that were previously recommended, the inclusion of an eighth Policy Determination is warranted. These Policy Determinations will serve to guide subsequent discussions with the community as the East Falls Church Area Plan is completed. The proposed new Policy Determination is:

8. Work cooperatively with the Virginia Department of Transportation (VDOT) and the Federal Highway Administration (FHWA) to advance a transportation and urban design study of the I-66 interchange in order to identify measures to better integrate this facility with the East Falls Church Station Area and reduce existing substantial adverse impacts.

County Manager: MB/GA

County Attorney: SM

Staff: Richard Tucker, DCPHD, Planning Division  
Richard Hartman, DES, Transportation Planning Bureau  
Bridget Obikoya, DES, Traffic Engineering and Operations Division

51.
