

## ARLINGTON COUNTY, VIRGINIA

**County Board Agenda Item  
Meeting of September 25, 2010**

**DATE:** September 7, 2010

**SUBJECT:** U-3202-08-2 USE PERMIT AMENDMENT for Clearwire antennas and ground equipment on an existing telecommunications facility 2305 S. Walter Reed Drive (RPC: 29-002-029).

**Applicant:**  
Clearwire US LLC

Suite 215  
Columbia, MD 21045

### **C. M. RECOMMENDATION:**

Defer the use permit amendment for a telecommunication facility for Clearwire at 2305 S. Walter Reed Drive to the October 23, 2010 County Board meeting.

**ISSUES:** This is a use permit amendment request for antennas on an existing monopole at 2305 S. Walter Reed Drive. The applicant is requesting a deferral to the October 23, 2010 County Board meeting.

**DISCUSSION:** Clearwire US LLC is requesting to add antennas and a new equipment cabinet to the telecommunications facility at 2305 S. Walter Reed Drive. The existing facility contains equipment for both New Cingular Wireless/AT&T and T Mobile. Existing holly trees are located at the base of the tower. Based on Clearwire's proposed plans it appears that the new equipment cabinet could impact the holly trees. This item was deferred to the September 25, 2010 County Board meeting to allow the applicant additional time to submit additional information on how, or if, the existing trees would be impacted by proposed ground equipment, and submit a plan depicting the proposal with the existing landscaping. The applicant is requesting a deferral to the October 23, 2010 County Board meeting to allow additional time to submit this information. Therefore, staff recommends a deferral of the use permit request for a telecommunication facility for Clearwire at 2305 S. Walter Reed Drive to the October 23, 2010 County Board meeting.
