

ARLINGTON COUNTY, VIRGINIA

**County Board Agenda Item
Meeting of September 25, 2010**

DATE: September 10, 2010

SUBJECT: Request to Advertise an Amendment to Chapter 14.2 (Motor Vehicles and Traffic), Section 14.2-12(a) of the Code of Arlington County, Virginia Concerning Maximum and Minimum Speed Limits by Decreasing the Speed Limits on North Pershing Drive from North George Mason Drive and Arlington Boulevard/State Route 50 (Fort Myer).

C. M. RECOMMENDATION: Authorize the advertisement of an October 23, 2010 public hearing to enact an Ordinance to Amend, Reenact and Recodify Chapter 14.2 (Motor Vehicles and Traffic) Section 14.2-12(a) of the Code of Arlington County, Virginia Concerning Maximum and Minimum Speed Limits by Decreasing the Speed Limits on North Pershing Drive from North George Mason Drive to Arlington Boulevard/State Route 50 (Fort Myer).

ISSUES: None.

SUMMARY: The State Code authorizes local governing bodies to enact and enforce ordinances to increase or decrease the speed limit on roadways within its boundaries, provided such increase or decrease is based upon an engineering and traffic investigation.

The Department of Environmental Services, Division of Transportation has conducted an engineering and traffic investigation on North Pershing Drive from North George Mason Drive to Arlington Boulevard/State Route 50 (Fort Myer). This investigation included an analysis of speed statistics, collision history, pedestrian activity, and roadway characteristics. Based upon these factors, the investigation supports decreasing the speed limit on North Pershing Drive between North George Mason Drive and Arlington Boulevard/State Route 50 (Fort Myer) by five miles per hour, from 30 miles per hour to 25 miles per hour.

BACKGROUND: Members of the Lyon Park Civic Association and Ashton Heights Civic Association have requested that the speed limit on North Pershing Drive from North George Mason Drive to Arlington Boulevard/State Route 50 (Fort Myer) be reduced from 30 miles per hour to 25 miles per hour, citing vehicle speeds as a safety concern. Speed limits are set by ordinance based upon an engineering and traffic investigation, in accordance with the State Code and Section 14.2-12 of the County Code.

DISCUSSION: An engineering and traffic investigation was conducted on North Pershing Drive from North George Mason Drive to Arlington Boulevard/State Route 50 (Fort Myer). In order to capture variations in traffic patterns and development characteristics along the length of the corridor, the study was performed in four segments based on portions of the corridor with similar roadway and roadside features. Factors considered in the investigation include speed statistics, collision history, pedestrian activity, and roadway characteristics. These factors are based on engineering guidance provided in national publications and would also be used in cases where residents on other residential arterial streets express concern that their requests to lower speed limits have not been granted. State Code requires an engineering study for each speed limit change. Residents may be concerned that a speed limit reduction on an arterial street may contribute to cut-through traffic on neighborhood streets; however, there is little reason to believe that this would be a factor in this case.

For the segments of North Pershing Drive between North George Mason Drive and North Oakland Street, North Fillmore Street and North Cleveland Street, and North Cleveland Street and Arlington Boulevard/State Route 50 (Fort Myer); data collected for the above noted factors supports establishing a speed limit of 25 miles per hour.

For the segment of North Pershing Drive between North Oakland Street and North Fillmore Street, data collected for the above noted factors is inconclusive in supporting establishment of a speed limit of 25 miles per hour. However, in the interest of eliminating driver confusion and reducing speed variation; it is recommended that a single speed limit be established for the entire corridor of North Pershing Drive from North George Mason Drive to Arlington Boulevard/State Route 50 (Fort Myer).

Because a speed limit of 25 miles per hour is recommended for three of the four segments within the corridor, a different speed limit for one segment can lead to driver confusion. Additionally, the variation in speed as drivers increase or reduce their speed when entering and exiting this segment can lead to higher collision rates. This proposed amendment will eliminate this confusion and safety concerns.

Therefore, it is recommended that the County Board authorize the advertisement of a public hearing to consider enactment of the attached Ordinance (Attachment 1), which would reduce the speed limit from the existing 30 miles per hour to 25 miles per hour along North Pershing Drive from North George Mason Drive to Arlington Boulevard/State Route 50 (Fort Myer).

FISCAL IMPACT: The cost of installing speed limit signs to reflect these changes will be approximately \$200.00. Funds are already available to replace these signs.
