**DISCUSSION:** This is a five (5)-year review of a use permit for a telecommunications tower located at the intersection of N. Old Glebe Road and Military Road. The Old Glebe Road Civic Association has requested that the owner of the tower provide information regarding schedule of maintenance for the facility and antennas located on the tower. Staff is recommending that the use permit be renewed for one (1) month to allow time for the owner of the facility to work with the community to ensure that their questions have been addressed. The owner of the facility has agreed to the one (1) month renewal and is currently working on providing additional information. Therefore, staff recommends renewal of the use permit subject to a County Board review in one (1) month (November 19, 2011).
