Subject : WEBSITE COMMENT: signage -- ATTN: countyboard

Comments : I just heard about the meeting tonight to discuss revisions to the County's policy on business signs. I strongly oppose the use of sandwich boards. I worry that they will impede pedestrian traffic, create a hazard to pedestrians who would be injured if one falls over. I also believe they would impede sight lines for drivers who are driving in congested areas and need to be able to see clearly without distractions and obstructions. The sandwich boards would especially be a hazard when driving uphill when the 3-1/2 foot height would be even higher to the driver. There is already a problem with election signs that obstruct and distract.

Thank you.
