

ARLINGTON COUNTY, VIRGINIA

County Board Agenda Item Meeting of April 21, 2012

DATE: March 26, 2012

SUBJECT: Approve the Award of a Contract to provide Sanitary Sewer Cured-In-Place (CCIP) Relining pipe size 18-inch to 36-inch at various locations throughout the County.

C. M. RECOMMENDATION:

1. Approve the Award of Rider Contract No, 711-12.to AM-Liner East Inc. to provide Sanitary Sewer Cured-In-Place (CCIP) Relining pipe size 18-inch to 36-inch for various locations throughout the County in the amount of \$1,600,000 plus a contingency of \$320,000 for a total contract authorization of \$1,920,000.
2. Authorize the Purchasing Agent to execute the Contract Documents, subject to approval as to form by the County Attorney.

ISSUES: County Board approval is required to award this Contract. No issues have been identified.

SUMMARY: This Contract will ride a contract from Howard County Maryland for Sanitary Sewer Cured-In-Place (CCIP) Relining pipe size 18-inch to 36-inch for the maintenance of the County sanitary sewer system.

BACKGROUND: The Department of Environmental Services (DES) Water, Sewer, and Streets Bureau (WSSB) is responsible for maintaining the County sanitary sewer system with approximately 465 miles of sewer mains and 13,000 manholes. The annual sewer main relining program is one of several maintenance programs managed by the WSSB to help renew the sanitary sewer system and ensure that it operates effectively and efficiently. Each year, WSSB rehabilitates approximately 1.5 percent of the sewer system or roughly seven miles of pipe through the relining program. As part of this year's maintenance annual program, a 30/33 inch sanitary sewer trunk line segment of approximately 5,200 linear feet, located in the Four Mile Run sewer basin between Columbia Pike and Walter Reed Drive (4000 - 4600 block of S. Four Mile Run Drive) will be rehabilitated.
