

ARLINGTON COUNTY, VIRGINIA

**County Board Agenda Item
Meeting of October 13, 2007**

DATE: October 2, 2007

SUBJECT: U-3183-07-1 USE PERMIT for family day care for nine (9) children for property located at 1944 North Edison Street (RPC #08-019-019).

Applicant:

Joan M. Daley
1944 North Edison Street
Arlington, Virginia 22207

C.M. RECOMMENDATION:

Defer the subject use permit to the January 2008 County Board meeting.

DISCUSSION: The applicant has been licensed for a day care home for up to five (5) children since July 2007. The applicant is now requesting a use permit to increase her existing day care home from five (5) to a total of nine (9) children, who would range in age from infant to 12 years. The existing day care home has required a number of visits by County staff to come into compliance. The applicant continues to work with the County Child Care office staff to meet County regulations and licensing requirements. Staff recommends a deferral for the use permit request to allow sufficient time for the existing day care operation for five (5) children to be evaluated and to be in compliance for six (6) months since it was licensed in July 2007. Therefore, it is recommended that the subject use permit request for a family day care be deferred to the January 2008, County Board meeting.
